# CARRIE NATION GOES TO THE WORK HOUSE

"I Would Rather Go to Jail Than Go to Hell," Is Her Cry

PITTSBURG, Pa., May 27.—Mrs. Carrie Nation of Kansas, who was arrested here resterday charged with disorderly conduct for scolding and embarrassing four men in public, was fined \$25 and costs or thirty days in the workhouse today by Magistrate Brady. She refused to pay her fine and will be taken to the Alleghany county workhouse this afternoon. As she was being led back to the cell department she cried out in the court room: "I would rather go to lett for the lift."

Mrs. Nation's present trouble started yesterday, when she strenuously objected to three men smoking digarettes and a freet car.

Several members of the W. C. T. U. who were present presented a hat to collect money two-defray her fine. They were successfull and Mrs. Nation was released a few moments before the train left for the work-house.

The circumstances reveal that the city and county auditor never had any authority over this fund; that the liability of the treasurer in this matter was purely personal.

Judges Favor Plan Where Couples Are Urged to Re-Unite Rather Than

Separate.

SAN FRANCISCO, May 27.—A "Court for Broken Hearts," a department of justice to reconcile couples seeking divorce, is to be established in San Francisco, if a plan promulgated by Superior Judge Graham is carried out. Presiding Judge Sturtevant is heartily in favor of the idea, and Judge Coffey, one of the deans of the Superior bench, stands sponsor for it.

sincerely regret that circumstances have made it impossible for me to accept the kind I nvitation with which you have honored me. I should have been most happy to have addressed my brother Native Sons of the Golden West, under the encouragement of their generous good fellowship and under the inspiration of the splendid surroundings of the wonderful valley in the beautiful State of which we are all so prend. "I should have been most gratified to have spoken upon the broad theme which you allotted to me upon that fraternity, that Brotherhood of mar which is the basis of the purest patriotism, of the highest civilization and of the noblest religion. "Fraternal organizatione such as ours tend to hasten the day when all men will regard each other as brothers and treat each other as brothers and treat each other as brothers when the strong will protect and not oppress the weak, and when the able, using their abilities for the all of all, will-win the honor and respect of all.

"I greet you therefore today with pride in the present achievement of our organization and with confidence It.
The plan is to have a "divorce" court to reunite rather than separate. The plan is to have a "divorce" court to reunite rather than separate. The whole scheme rests on this plan. When the man and woman comes before the court they will be called upon first to explain the causes of their difficulties and if those are trivial and easy to remedy, the couple will be advised to leave the law alone and to return to their homes. If the advice of the judge does not fail to move the pair, on the hearing of the testimony, the divorce will be ganted if the testimony permits it.

Judge Graham himself probably will be asked to preside over the court, if it is established. Throughout his career on the bench his\_efforts have been directed to reuniting rather than to divorcing, and the long list of reconciliations that he has to his credit have made him famous in this line.

Judge Graham said yesterday: "I believe there is a need for a court devoted to the hearing of divorce cases alone, with the granting of the decree as a last resort, and only to be contemplated after every effort to affect a reconciliation has failed.

"I believe a court where an attempt to re-unite unhappy couples would be made might be productive of much good," said Judge Sturtevant. "People who desire a divorce are frequently without the ability for serious refrection and if such philosophy could

# HUMORS

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and be absorbed into the blood, and soon the circulation becomes filled with an acrid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform

softness, pliability and healthful-ness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

troubled with Eczema, located principally on the shin bones, caused by a humor in the blood. The trouble would appearin the form of small yellow blisters, characterized by itching, etc. I tried sarsaparillas, so-called blood purifiers, salves, cintments, lotions and treatment under a local physician, but nothing did me any good. Becoming discouraged I left off all this treatment, and seeing S. S. S. advertised one day I decided to try it, and after taking it a short while the humor was driven from my blood and I was completely and permanently cured. A campaign for the reformation of wayward girls will be started by the probation officials, Probation Officer Christopher Ruess save, if more assistants can be had. Hilda Anderson, 16 years of age, who was committed to the Whittier Reform School yesterday afternoon, opened the eyes of the probation authorities by her statements in regard to the number of wayward girls that now reside in this city.

The Anderson girl, who was stylishly dressed when arrested, told the authorities of a large number of girls who are leading a wayward life. Many of these girls, she declared, are under the age of sixteen and a great many more are under the age of eighteen. After making these statements the girl was sent to Whittler and she was led away to the courty fail, penitent and weeping

Tires of Search

Of Lost Collier

SAN DIEGO, May 27.—The British ford, arrived this morning from the south, having been on a long and fruitless search for the big British coller Silverhorn, which is now supposed to have been lost with all on board in the South Facific ocean, near San Fernandez island, off the coast of Northern Chile.

Public Works Mayor Mott and Engineer Turner in discussing the proposition to purchase additional sprinkling carts for the street department said it had been ascertained that such action would be a good stroke of economy "Most of the drivers are all right, and the city is not made to suffer on account of their carelessness, but some of the drivers in order to swell their records report that they have used. "This makes the city is mulcied, for some of the drivers in order to swell their records report that they have used. "This makes the city lose at both ends of the contract." said Engineer Turner. "In the first place the amount of sprinkling is skimped and in the second place the city pays for more water than it gets."

The additional water wagons are to be provided for st an early date. Public Works Mayor Mott and Engi-

### The Second Gallagher Explosion.

The second Gallagher explosion is even more perplexing than the first, though it negatives the idea that the Schenck home in East Oakland was blown up with intent to eliminate Gallagher as a witness in the graft cases. However, it leaves that outrage a darker mystery than it was before-unless the police have gained information they have not yet made public.

Indubitably the explosion last night was not an attempt upon the life of Gallagher or anybody else. On the surface it was merely a wanton destruction of property. At this writing it is not known if the house was insured or is being erected at the contractor's risk. Hence it is unwise to jump at conclusions or formulate theories not predicated on all the ascertainable facts.

One thing is certain, however: it is of the gravest importance that the mystery of these explosions should be solved. Such occurrences give this community a bad name. The people of Oakland are law-abiding, and have no sympathy with lawlessness and private vendettas. They desire to know the authors of these explosions and the motives which prompted them. Ther may be no connection between the first and second, but the . I instinctively con-

Life and property should be safe in this town, but there can be no assurance of safety till the perpetrators of the Gallagher explosions are ferreted out and punished. It is beside the point to say that Gallagher is an undesirable crtizen, and that the explosions are a direct consequence of his locating in Oakland. What happens at one time in regard to one person may happen at another time in regard to another person. Therefore the police should bend every endeavor to finding out who blew up or instigated the blowing up of the Schenck home and the Gallagher flats, and what is behind those disgraceful occurrences. It is abortive to formulate theories and sit down on them. Nothing but an ascertainment of the facts will satisfy the public or do justice to the case. Mere conclusions prove nothing and are too often colored by personal bias, interest and prejudice to be of value. These explosions were criminal acts, which endangered the peace of two neighborhoods and have inspired a feeling of uncasiness in the community. Not for the sake of Gallagher or anybody else the mystery should be cleared up. So much is due the good name of Oakland and the security of its inhabitants. The lives and property of others beside Gallagher (assuming that Gallagher's life has ever been endangered) are put in peril by these night explosions. Hence they should be stopped at all hazards, and we trust the Oakland police will follow every clue till everything is explained and the guilty persons brought to punishment.

Nor h Carolina has voted for Prohibition by an overwhelming majority, following Georgia and Alabama in putting the liquor traffic under the ban of the law. Rigid option laws are driving saloons out of half a dozen other Southern States. Still a certain class of liquor dealers refuse to take warning, but continue to affront the public sense of morality by their method of transacting business. It is not merely intemperance that an aroused public sentiment is fighting, but certain aggravated evils resulting from certain phases of the retail liquor trade. The quicker men engaged in the manufacture and sale of intoxicants recognize this fact and order themselves accordingly, the better it will be for them. The issue cannot be confined to abstractions about personal liberty and the efficiency of prohibitory laws. Popular feeling is expressing itself in regard to concrete examples of depravity and degradation afforded in nearly every community where low license prevails and numerous saloons flourish.

### Good Athletics Win.

Amateur athletics in this country have won another big battle and one which will do more than any other thing has done for years to help out the much abused criticism of college athletics. Swarthmore College has determined to give up intercollegiate athletic contests for a whole year. On every hand this action meets with general approbation because this institution met with some very unpleasant criticism over its football teams and lost the prestige gained by its refusal of a large bequest made the college on the condition that it forego football

For many years Swarthmore enjoyed only an occasional notice with its athletic standing. Suddenly the school came to the front and passed all rivals by the excellence of its football squad. An investigation showed that the undergraduates had banded together for results and professionals donned the moleskins and carried everything before them. Never was there in the history of athletics such a storm of protest as followed. Not only that, but the bitterest sort of criticism arose. The faculty saw nothing but the successes for a time and stood pat with the ambitious alumni. They have seen the light and everyone is satisfied now and peace reigns.

One influential paper in Philadelphia," says the Chicago Tribune, "makes a telling comparison between the dangers that threaten academic freedom when the liberty of the teaching staff is involved and the more insidious and destructive influence of professional athletics in colleges. It comments particularly upon the sneaking methods of slipping into the arena as representatives of the college life those who are mere mercenaries. The degradation of Swarthmore in this respect in recent years makes its recent heroic action a great victory for pure athletics."

The Bryanites are pinning their forlorn hope of success in the pending Presidential campaign on the labor and colored vote. The threat against the wage scale expressed in the Democratic demand for free trade will repel the workingmen, while the wholesale disfranchisement of colored voters in the Democratic States of the South will not permit any considerable number of Negroes to assist in putting the Democrats in control of the national government. Criored voters will stand by the Fifteenth Amendment to the Constitution, and the workingmen will vote to uphold the high wage scale that Protection enables this country to maintain.

#### Governor Gillett and the Parole System

The attacks made upon Governor Gillett have been many and varied It is a noticeable fact, however, that there has been no criticism directed against the businesslike manner in which he has watched over and cared for the various State institutions. Thousands of dollars are spent annually by the State on these institutions, and one of the chief duties of the Governor of the State is to see to it that they are maintained as they should be maintained, at the highest standard of efficiency without a useless expenditure of money. In this task the enemies of Governor Gillett must acknowledge that he has been most faithful. Occasionally the public is given a

glimpse of this work, which ordinarlly is carried with but little attention paid to it by the press. This happened the other day when the Board of Prison Directors, at the request of the Governor, passed a resolution abolishing the old system of pardoning prisoners and adopting a plan making the recommendation for pardon, by the Governor, provisional upon a candidate's demeanor during a period of parole. The plan was adopted after being presented by Edward A Cooper private secretary for Governor Gillett, in which it is explaised that the Governor would be enabled to judge better of the prisoner's worthinees of pardon were the candidate first allowed provisional liberty.

The parole system as it is in operation today marks the most intelligent effort that has yet been exerted in the State along the lines of feasible and practical prison reformation The value of this system in promoting discipline in the prison and good citizenship outside of its walls a cvident to all who have in any manner acquainted themselves with its operation. If citizens of Alameda county fail to patronize local business houses it will not be the fault of the Cakland Chamber of Commerce; for that or-

Chamber of Commerce; for that organization is preparing a campaign of promotion that will put reminders in front of the people's eyes every day for six months.

"The plan is to stir up their purer minds by way of remembrance," is the way in which the matter is atated by members of the committee that has charge of the movement.

If results are satisfactory, the campaign will be continued as long as funds are available.

"Patronize Home Industry," will be the watchword of the promoters. Cards will be placed in every car of the inter-urban trolley service setting forth the advantages of Oakiand as a shopping center and urging residents to ping center and urging residents buy goods on this side of the bay.

# seven runs, or enough to win the game with two runs to spare. Dellar, Oakland's star slabblst was on the rubber for the home team in the opener and he displayed very poor form. Before he had a chance to show anything the Angels had combed him for four runs, and he was taken out to give Hopkins a chance. Hopkins arrival was too late and the Angels gave to him somewhat of a mauling at that. The one pleasant feature of the day was the long swat of Heine Heitmuller. The big Teuton laid against one of Hosp's benders in the second in ling and sent the sphere over the left field hit. It was a peach of a drive, and was a longer hit than Brashear's wallop of Sunday mornins. The fielding on both sides was of the ragged sort. Eagan had a very bad day at short and three errors went in the plant of Dellar. Passed ball—Hogan, Immore Perrine.

No Grudge Against Haley.

We are not personally opposed to Haley. We are opposed to the peors sort of baseball that he plays at times. For the writer's part, he hopes Haley would really play the sort of baseball he is capable of playing.

Haley is a fast boy, a fair hitter, and when he is not placed a pretty fair fleider. But he is a very timil fielder. But he is a very timil fielder. Any time the opposing player makes a dash for the bag he seems to have Haley's goat. 'Tis common report that when there is a man on first and another on third against Oakland the runners never healtate to make a double steal, and one of the reasons is that Haley is so timid.

It is our belief that if Haley would ginger up, show more sand, let the other fellows know that he is on second to guard that position and play up to the standard that he is capable of playing he would make a much better ball player. The find on the sundard that he is capable who has the which hand in gride of playing he would make a much gride playing he would make gride playing he would make a much gride playing he would make gride playing he would make

### SEEKS RECOVERY OF LAND AROUND FRESNO IN SUIT

E. S. Pillsbury Files Complaint Against Mrs. L. S. Baldwin and Children.

A suit, which is much complicated, was filed yesterday afternoon by E Z. Pilisbury against Mrs Lillian S. Baltwin and Mary L. and Rita Baldwin. Pilisbury is seeking to recover an interest in Fresno county lands which he claims is being held by the defendants.

Filisbury claims that in 1884 Mary E. J.

Pilisbury claims that in 1894 Mary E. J. Howell gave a one-third interest to him and a two-thirds interest to the late Frank T. Baldwin, whose widow and daughters he is now suing, to lands 'n Fresno county. A deed to his interest was executed in his favor, he claims, by Baldwin, but never delivered to him. The document, he claims, was destroyed in the San Francisco conflagration and that he never obtained it. Pilisbury says that Faldwin died in Fresno in 1897 and faled to turn over this deed to him before his death. Pilisbury alleges that Baldwin s estate has never been probated, and that his widow and daughters are now hobing his one-third interest in the Fresno property.

(Special to The Tribune.)

SAN FRANCISCO, May 27. — While endeavoring to fight off a fierce build dog which attacked him while he was walking on Fell street, near Gough in company with a young woman, about midnight, Frank J. McQuald of 133 Fillmore street, was struck on the head with a brick hurled by an unknown assailant and fell unconscious to the street. He was picked up and removed to the Central Emergency hospital, a few blocks away, where his wounds were dressed by Dr. Topham. He had received a badly lacerated wound of the scalp and was evidently stunned by the blow as he recovered consciousness about an hour later and reported the affair to Officer Welch of the Central station.

VETERAN THEATRICAL

MANAGER IS DEA

CHICAGO, May 27—David Henders
the veteran theatrical manager, died a sanitarium here last night after long illness

MANAGER IS DEAD

CHICAGO, May 27 - David Henderson,

E propose to give a thousand dollars cash to each of the first fifteen purchasers of Broadmoor lots who start to build their homes-

-There are no strings on this proposition-no "ifs", nor "ands"-no "nigger in the woodpile"-it's a clean-cut, bona fide gift of exactly \$15,000.

-Suppose you bought a half acre Saturday, and say, within a week you started to lay your foundation and let your contract to build-you would .nmediately receive \$1000 (of course, providing 15 people didn't get in ahead of you)-this thousand would be applied upon your lot if you bought on terms, or given to you in cold cash if you paid cash for your lot-

-That's fair, isn't it?

-Now, nobody has any start of you-your chance to get one of these thousand dollar purses next Saturday is as good as anybody's--

-It would be pretty fine, wouldn't it, to be able to put up a \$2250 bungalow, in Broadmoor, and have it only cost you \$1250-

-Now, get your pencil and figure out how you can get a lot with cash you have, and build at once, using the thousand dollar bonus,

-We will listen to any kind of a proposition that you figure out, providing you are in earnest about building an artistic home in Broadmoor. We will figure the financial part out some way for you-even if you've only a couple of hundred dollars.

—So, don't let money matters keep you away next Saturday or Sunday—Twenty dollars is all you need to bring with you, for that will hold a lot for you a few days until you can make up the balance of your first payment,

-Now there is another point regarding Broadmoor that we haven't given sufficient emphasis—that is the wonderful fertility of the soil-

-For over 50 years the 150 acres of Broadmoor has been famous for its production—In all of California we have never known of such a remarkable piece of ground—Everything seems to grow in Broadmoor—several fortunes have been made out of the unparalleled productiveness of its soil and it is said that half an acre in Broadmoor will produce as much as two acres of ordinary land-

-"Yes, but that doesn't interest me," you say-"I'm not going to farm:"-

-Yes, but it does interest you, for if that land can grow produce as it has, it will grow roses and palms and lawns and oranges—it will grow in a 20-foot patch all the vegetables you'll eat-it will grow upon half a dozen bushes all your berries-It will grow alfalfa for your cow-The fertility of Broadmoor will mean the beautification of Broadmoor-It will mean gardens and gardens of flowers, acres and acres of lawns-it will mean rose-covered porches, and giant palms.

-Another feature will be the wonderful water supply at Broadmoor. A pneumatic artesian system of water supply is being installed that will give unlimited pressure, great volume, and all at about half the cost of city rates-

-With the land and the water and the sunshine of Broadmoor coupled with the character of its people and the building restrictions imposed, it ought to be a Fairyland past all our fairest dreams-

-And when you see Broadmoor five years from now, as the picture shows above, you'll bless the day you spent with us and realize the good fortune you had in securing a choice lot at the ground floor price.

-Will you be with us Saturday -Just fill out the coupon and we'll take good care of you-you'll have a fine time and the ride and the air and the sunshine will do you good.
